NEWS CAME TOO SLOW

Washington Official's Became Impatient.

THEY ASKED FOR DETAILS.

Wanted to Know More About Fall of Santiago de Cuba.

THE BARE FACT NOT SUFFICIENT

After Some Delay General Miles and Shafter Answered the Inquiries, Making Known That Spaniards Wanted to Retain Their Arms.

Washington, July 16.—There was a long and anxious wait to hear further news from the commissioners who had been charged to make arrangements for the surrender of the Spanish army at Santiago.

For 18 hours no word came from either General Shafter or General Miles, although there was the keenest desire on the part of the president and cabinet advisers to learn what had been done, and particularly to know whether the actual surrender of Santiago and the Spanish troops had been carried out.

When the cabinet met at 11 o'clock there was positively nothing from the front which would serve as a guide for the deliberations.

It was thought the cable had been interrupted, but on inquiry of General Greely, chief signal officer, he gave assurance that the cable was intact.

Thereupon Secretary Alger sent a dispatch asking for the situation up to the latest moment, and particularly inquiring how far the surrender had proceeded.

No answer came while the cabinet was in session. In the meantime General Greely had called, and he was the first official to hear from the front.

A dispatch from Lieutenant Jones, military censor at Playa del Este, reported that the message from the secretary of war to General Shafter was only six minutes in passage from Washington to Playa.

NEGOTIATIONS NOT COMPLETED. The message received by General Greely came at 2:23 p. m., and indicated that negotiations were yet in progress; but as the dispatch was submitted to the president no details were given out.

Toward the middle of the afternoon dispatches from General Miles and General Shafter began to arrive in response to Secretary Alger's rather imperative request.

They were not given out in full, but such portions as were made public showed that the negotiations were still in progress and that the Spaniards had raised some rather unexpected questions.

Most important of these was an insistence that the Spanish troops should retain their arms when they returned to Spain.

There was entire willingness on the part of General Trol to turn over the arms to General Shafter at the time of the surrender, but with this was to be the understanding that the arms were to be returned to the Spanish troops when Spanish soil was reached.

This was a condition which had not been anticipated. The authorities here did not regard it as serious, or as likely to overcome a final settlement, as it was attributed to the Spanish sensitiveness against the humiliation involved in the laying down of their arms. At the same time it was a point on which neither side appeared to be ready to yield.

SETTLEMENT EXPECTED SOON. One of the dispatches from the front, after specifying that this difference had arisen, added that it was believed a settlement would be reached before the day closed.

General Shafter himself summed up the situation by saying: "It can not be possible that there will be a failure in completing arrangements."

No question whatever has been raised as to the surrender itself. Not only has General Trol agreed to it, but this agreement has been ratified by General Blanco at Havana and the Spanish authorities at Madrid.

General Greely received another dispatch at 5 p. m. containing the information that Colonel Allen had landed the shore signal cable at Playa del Este from the cable steamer Adria.

Colonel Allen was not allowed to land at Playa on account of the Adria coming from an infected district. All were well on board, but no one was allowed ashore.

Colonel Allen returned to Balquid to repair the French cable at that

point and establish regular communication between Playa and Santiago de Cuba so that the army will be in telegraphic communication with Washington as soon as the city is surrendered.

The perplexing problem now to be solved is how to carry out the pledge made by General Shafter to remove the Spanish soldiers, who surrendered, to Spain.

RATHER GIGANTIC UNDERTAKING. It would have been no easy undertaking to remove the 20,000 men across the Atlantic under the best conditions, but the reports that indicated the existence of yellow fever among the Spaniards threatened all kinds of difficulties.

After all, it was decided to be only a matter of money, and if the price offered is large enough steamship lines can doubtless be found to undertake the transportation.

At the best several weeks probably will be required to remove the Spaniards, so that it will be necessary to maintain a considerable proportion of the American army in the neighborhood for some time to come.

Still, being under no care to protect themselves against the foe, the American troops can be so disposed as to make themselves very comfortable in comparison with what they have undergone, and by removing them into the hills just in the rear of Santiago, it is believed that the danger of an extension of the yellow fever will be reduced so far that it will no longer be cause for grave apprehension.

The surgeons' reports describe the disease as of a mild type and it is said that this will readily yield to a change of location into higher and cooler ground.

FOURTH EXPEDITION.

Major General Otis Has Sailed to Assist Admiral Dewey.

San Francisco, July 16.—The fourth Manila expedition is under way. Shortly after 3 p. m. Friday Major General Otis, from his flagship, the City of Puebla, signaled the transport Peru to get under way.

As the two vessels, and the small fleet accompanying it, passed the forts the big guns from the batteries sent forth their thunder in salute, to which the transports responded with their steam sirens.

Long before dusk the last good-bye had been said to the departing vessels from the decks of the tug-boats and the heavily laden transports proceeded on their way to Honolulu, where they will stop to participate in the annexation ceremonies and to take on fresh provisions and refill their coal bunkers.

Major General Otis and staff have their headquarters on the City of Puebla, which also carries the remaining companies of the Fourteenth United States Infantry; recruits of the First and Second battalions of the Eighteenth and Twenty-third regiments; enlisted men of the First North Dakota, First Wyoming and First Idaho, medical officers and members of the hospital corps; a total of 843 men.

The troops on the Peru consist of a squadron of the Fourth United States cavalry, light batteries of the Sixth United States artillery, a detachment of the Third United States artillery, a detachment of the signal corps under Captain Russell, a detachment of volunteers, medical officers and members of the hospital corps; about 920 men.

The last orders of General Otis before leaving were that the remaining transports should sail as soon as possible, irrespective of fleets or other expected vessels. Each one, he said, should go by itself if necessary. The Pennsylvania and City of Rio Janeiro are both nearly ready and will probably be prepared to sail by next Thursday. The loading of the commissary stores on these two vessels has begun.

Brigadier General H. G. Otis has finally been selected to command the fifth expedition to Manila. His fleet will consist of the steamers Rio Janeiro, St. Paul and Pennsylvania.

The war department has instructed General Otis to relieve the First Utah cavalry from the expected duty in the Philippines and to transfer the troops to the department of Major General Merriam.

Spaniards Are Panic-Stricken.

Barcelona, Spain, July 16.—The inhabitants of this city are panic-stricken. They believe the Americans will select defenseless Barcelona as the first point to bombard. The local banks are removing their specie to the country, the merchants are sending their goods to places of safety and many of the citizens are leaving. The governor of Barcelona has informed the people that they cannot expect help from the government.

A Line to Manila.

Seattle, Wash., July 16.—Shipping men here believe that the Pacific Coast Steamship company intends to establish a line to Manila. They base their opinion on the manner in which the troopships Senator and City of

Puebla were fitted out, the equipment of the vessels indicating that their service to the Philippines is not to be temporary.

Dangerously Wounded Soldiers Arrive. Newport News, Va., July 16.—The United States transport Olive arrived at Old Point Friday afternoon having on board a number of men who were dangerously wounded at the battle of Santiago. None of them were landed at Old Point. The vessel sailed at 5 p. m. for New York, where the injured men will be treated.

Tribute to Chinese.

Washington, July 16.—The state department posts a bulletin stating that Admiral Dewey pays a high tribute to the Chinese on board the American ships at the battle of Manila, and suggests that they should receive recognition by being made citizens of the United States.

Porto Ricans Alarmed.

St. Thomas, Danish West Indies, July 16.—Advices received here from San Juan de Porto Rico show the inhabitants of that place are greatly alarmed. They expect the port will be attacked by the Americans soon.

Peace Not Mentioned.

Washington, July 16.—The subject of peace was not mentioned at the cabinet meeting and it can be authoritatively stated that the president has not received an intimation from any official or even semi-official source that Spain desired peace upon any terms that could be entertained by the United States. One prominent member of the cabinet said that Spain was rapidly losing ground by not seeking to make terms and added that "she seemed to have no ability to make war or capacity to make peace."

TROOPS AT HONOLULU.

Slight Accident to Machinery Details the Fleet Somewhat.

Honolulu, July 8, via San Francisco, July 16.—The transport Valencia arrived yesterday, closely followed by the Newport. There was a slight accident to the machinery of the latter on the way down as a result of which she was hove to for several hours. After she arrived it was given out that she would coal as fast as possible and hurry to Manila without regard to other vessels of the expedition in port.

At 5:30 this morning the Indiana raised anchor and moved outside the harbor. She was followed closely by the Ohio and the Morgan City. At 9:30 o'clock the City of Para moved outside and joined the fleet. Just before noon the Valencia and Newport, the latter with General Merritt and staff on board, left the harbor, the signal to sail was given and the vessels moved off.

Before dark the Indiana, the flagship, returned, accompanied by the rest of the fleet, with the exception of the Newport, which went on ahead. The officers of the Indiana reported that the boilers had sprung a leak, necessitating the return. It will take 12 hours to make the repairs. The fleet will make another start early tomorrow morning.

Murat Halstead arrived by the Newport. Since leaving San Francisco Mr. Halstead has been suffering from a low fever and was transferred from the ship to the local hospital, where he is likely to remain for some days to come. He may decide to return to San Francisco unless a marked change in his condition takes place soon.

Express Great Satisfaction.

London, July 16.—The weekly papers express great satisfaction over the fall of Santiago. The Speaker thinks the event presages the end of the war but describes it as "a stroke of good fortune which the Americans had no right to expect." It adds: "The terms of surrender are not dishonorable. They reflect credit upon both sides." The Saturday Review explains its change of attitude in favor of America and declares all its original antagonism was prompted by America's "aggressive humor" while its present attitude is a "somewhat tardy, but ungudging admission of American courage and humanity."

Hour For Peace Overtures.

Paris, July 16.—The Temps says: "The hour for opening the peace negotiations has struck with the fall of Santiago, particularly as the appearance of yellow fever will dispose the Americans to receive them favorably."

Spaniards Seeking Refuge.

Marseilles, July 16.—A number of Barcelona steamers have taken refuge here, fearing an American attack on Barcelona.

Columbus, O., July 16.—The Patriarch Militant decided to meet in this city again next year and elected the following officers: President, Major General John C. Whitaker, Dayton; secretary, Lieutenant Colonel W. L. Ryan, Dayton; treasurer, Major General L. C. Cable, Covington.

MARKETS INFLUENCED.

War With Spain Has Cut a Figure In Speculative Quarters.

New York, July 16.—R. G. Dun & Company's weekly review of trade says:

The destruction of a Spanish fleet, Europe's quick appreciation of the feat, the wearying flags of truce at Santiago and at last the surrender, have all influenced some markets day by day.

But Americans have grown, and traders see that not many outside matters greatly influence the business which enables them to market \$1,210,274,015 worth of domestic products abroad in a year, against \$616,052,844 worth imported.

The new loan has proved a stupendous success, over \$1,300,000,000 having been subscribed, and it is now the question of chief interest whether any banks will get enough, after personal subscriptions have been accepted, to support further circulation.

Industries and business are at the naturally lowest point for the year and therefore the records are the more impressive.

Failures for the week ending July 7 were \$1,854,394 in amount, \$946,611 manufacturing and \$899,783 trading.

Failures for the week have been 215 in the United States against 263 last year, and in Canada 23 against 27 last year.

Individuals Get It All.

Washington, July 16.—Assistant Secretary Vanderlip said that corrected figures show that the total subscriptions to the war bond issue amount in round numbers, including syndicate bids, to \$1,365,000,000. Mr. Vanderlip stated that those subscriptions for amounts below \$5,000 will be allotted, those for exactly that amount will be awarded, part of it, and the subscriptions for more than \$5,000 will be rejected. The full \$200,000,000 has been subscribed for by individuals in amounts of about \$5,000 or less.

Physician Dies of Blood Poison.

Paris, Ky., July 16.—About six weeks ago Dr. James Pithian, while puncturing and dressing a boil for one of his patients, was unfortunate enough to have a small portion of the virus enter a slight wound upon one of his fingers, which immediately began to swell, the trouble extending up the arm. He, it is said, requested that his hand and part of his arm be cut off, but the attending physicians disagreed with him, believing they could bring him through all right, but after various changes he died.

A Strange Phenomenon Witnessed.

Columbus, Ind., July 16.—A strange phenomenon was witnessed here in the zenith. It was a clear and distinct part of a rainbow about 25 degrees, and extended almost overhead in a northerly and southerly direction, about 10 or 15 degrees west of the zenith. The sky was almost clear at the time and the phenomenon was witnessed by many of our people.

Brother and Sister Reunited.

Elwood, Ind., July 16.—Grandma Fox of this city and her brother, Jack Rector, have been reunited after a separation of 35 years. Rector searched for her for several years, and while passing through this county stopped at a farmhouse for a drink of water. After a few questions there was a mutual identification, Mrs. Fox proving to be his sister.

Waiters Arrested.

Maysville, Ky., July 16.—Watt Johnson and Seaton Alexander of this city, and four colored waiters from Cincinnati, working at Glen Springs, Lewis county, allege that the proprietor refused to pay them. The men seized silverware and other articles and walked off with them in the presence of a guest. The men were arrested.

Scaffold With a History.

Georgetown, Ky., July 16.—The 18-foot plank enclosure and the scaffold on which Clarence Vinegar, the negro wife murderer, will hang next Monday, have been secured from the sheriff at Lexington. Vinegar will be the seventh man to go out into the great beyond from this same scaffold.

London, July 16.—A special dispatch from Vienna says a man named Harry Dantmont, who claims to be the son of a wealthy resident of Chicago, and who is said to be cycling the world for a wager, has been picked up insensible in the streets of Graz, where he was taken to a hospital. It appears that Dantmont's strength failed while he was attempting to walk from Vienna to Trieste.

Ryan Congratulated.

Peoria, Ill., July 16.—The mayor of Peoria and board of trade telegraphed congratulations to Lieutenant T. W. Ryan, commanding the auxiliary gunboat Peoria, for its recent achievements. The boat was named after this city at the request of its citizens, and the people are very proud of the record it has made.

HUGGED EACH OTHER.

Soldiers Frantic With Joy Before Santiago.

DEMONSTRATION FORBIDDEN

But the Brave Boys Could Not Restrain Their Emotions.

THEY CHEERED RATHER LUSTILY

General Shafter Said There Was No Occasion For Humiliating the Enemy Who Had Been Forced to Surrender to Uncle Sam.

Before Santiago de Cuba, July 16.—After the Spaniards had surrendered General Shafter appointed Colonel Astor and Captain McKittick to convey the welcome tidings along the lines.

Some of the officers favored celebrating the victory with bands and a noisy demonstration, but General Shafter vetoed the proposition. He said there was no occasion to humiliate the enemy who had fought bravely.

Not even cheering was to be permitted, but before Colonel Astor and Captain McKittick could warn the soldiers the latter broke out into wild hurrahs.

Some danced about, threw their hats into the air, hugged each other and congratulated themselves upon the prospect of getting out of Cuba in a few days.

General Shafter instructed the commissioners that the inside harbor entrance be immediately opened to allow Clara Barton of the Red Cross society and the supply ships to enter, and that the railroad from Siboney be opened for a similar purpose.

We are to supply the Spanish prisoners with food pending their concentration and embarkation. General Trol requested this, saying that there was very little food in Santiago.

It is probable that the Spanish steamers in the harbor will be used in part for the transportation of the surrendered soldiers to Spain.

The Spanish troops abandoned the intrenchments early Thursday afternoon and went into the city.

Our commissioners, accompanied by an interpreter, entered the Spanish lines shortly after 2 o'clock.

General Miles and his staff arrived at Siboney from the front Thursday evening and went aboard the Concha. On the wharf General Miles said:

"Santiago has surrendered on our terms, after vainly trying for a long time to get better ones. The result is highly gratifying. The Spanish prisoners will be transported to Spain by us."

"The surrender carries with it not only the city of Santiago, but the entire Santiago military district, being the eastern portion of Cuba, west to a line drawn from Assoradores on the south coast to Sagua on the north coast. Manzanillo and Holguin are not included."

"The possession of the surrendered district will be yielded at once. The American troops will be left where they are for a time, until they are needed for service elsewhere."

"I do not wish to say what point will be attacked next. I may come ashore again here, but hardly think so."

Watching the Mines.

Pana, Ills., July 16.—Six hundred miners are idle here and watch the four mines daily to prevent nonunion men resuming work. The men received an additional \$1,000 Monday to add them in remaining out, making \$2,500 in the past two weeks. President Horace R. Calef and the entire state board of arbitration arrived by request of the union miners, who have waived the scale price, 40 cents, and asked the board to take evidence and name price to be paid. All the operators and leaders of the miners' organization have been summoned before the board.

Omaha, July 16.—Work is practically suspended at Cudahy's packing house. The killing gangs have gone out in sympathy with the laborers. At Swifts the hog butchers are at work. At the Hammond plant matters are unchanged. Over 3,000 men are out now.

Going to Adirondacks.

New York, July 16.—Dr. President Benjamin Harrison, who has been here with his wife and baby at the Fifth Avenue hotel, left for Old Forge, General Harrison's cottage in the Adirondacks.

It is said that one of the amusements in Spain is to decorate pigs with American flags and torture the animals as they run through the streets. A people who can find amusement in such "sport" are hard up for amusements.

THE Vanceburg Sun reminds Republican pie-hunters that Congressman Pugh's father-in-law will have a lot of nice fish offices to distribute, if the civil service rules are abolished. Pugh is fishing for suckers, and most any kind of bait will do.

It will be the old story of the monkey climbing the pole the more Sampson claims the credit for the victory gained while he was too far away to be "in it." Sampson may be a very strong man, but the sunch he raises in the nostrils of fair-minded people in claiming Schley's victory as his own, is by far the stronger.

THE Ashland News has lately blossomed out with fresh zeal and enthusiasm for Judge Pugh. Editor Miller pretends to believe that if Pugh is returned to Congress he will knock out the civil service, establish a new Federal Court district, and of course, in this event, he would have a lot of "pie" to hand around among the faithful. The faithful, however, can not overlook the fact that Pugh gobbles up most of the pie for his kin.

It is claimed at Washington that corporations, banking institutions and firms will not secure any of the bonds which are to be sold to defray the expenses of the war. The first installment of the bond sale amounts to \$200,000,000, and will be distributed among at least 200,000 subscribers, those taking the smaller ones being given the preference. All of which will teach Europe that the people of the United States can always be counted on to back up Uncle Sam in every emergency.

Free at Electric Park.

To-night at 8:30 Prof. Charles Thompson, the daring aeronaut, will make a grand balloon ascension and parachute leap, also giving a display of fireworks in the clouds, including the unfurling of "Old Glory," a magnificent set piece. Sunday afternoon at 3:30 Prof. Thompson will make a daylight ascension which will be absolutely free to street car patrons.

A clever vaudeville program in the theatre to-night. An entire change of people next week. Remember everything is free to street car patrons. Be sure and ask the conductor for a coupon ticket.

SERVICE in the First Presbyterian Church to-morrow morning at the usual hour for public worship, and an exchange of union services having been effected with the M. E. Church, South, there will be no services at night. Mission Sabbath school in the German Church at 2:30, and the Westminster Y. P. S. C. E. at 8:45.

MACKINAC.

Trip on the Lakes to the Rock-Walled Island an Ideal Outing.

The "Snow Islands" the Fisherman's Paradise—Scenes and Incidents En Route.

Those who intend taking a trip during the hot season should wend their way to the big lakes north of us if they would have their outing thoroughly enjoyable in every respect. This I believe is the unanimous verdict of those members of the Kentucky Press Association who recently journeyed to Macinac and back on the palatial steamers of the Detroit and Cleveland Navigation Company.

The "City of Mackinac" carried the editors on their trip and they returned on the "City of Alpena." These are twin vessels, built three years ago at a cost of \$300,000 each. Constructed of steel, richly furnished throughout and complete in all their appointments they might appropriately be termed "floating palaces." They have a speed of twenty miles an hour, and are as prompt as a railroad train in their arrival and departure at the various ports on the route, running on schedule time. In addition they are officered by as clever and gentlemanly a set of men as one will find anywhere. On his recent trip the writer was favorably impressed with this fact. Especially is this true of Captain Lightbody, of the "Alpena," whose courteous treatment and jovial disposition are calculated to make him a favorite with the patrons of the line.

With the two elegant steamers just named and the "City of Detroit" and "City of Cleveland," which last two ply between Detroit and Cleveland, the D. and C. Company certainly has the finest passenger line on fresh water, and a trip on one of these vessels is always a most delightful one.

The editors had been sweltering in a temperature of nearly 100° at Cincinnati, and on the run up over the C. H. D. train, and one may imagine how gladly they welcomed the refreshing lake breezes and the change to the roomy and elegantly furnished "Mackinac."

The vessel soon moved out on the big lake, away from the foul smells and the dust and dirt and noise and clatter of the city, and went rushing through the great body of water which spread out before you as "clear as crystal." What an exhilaration thrills one and sends his blood coursing through his veins with renewed vigor as he stands out on deck and drinks in the pure air of the refreshing breezes!

I imagine a week's sojourn on one of these steamers as she speeds o'er the lakes would do more for a person afflicted with hay fever or other kindred troubles than all the medicine he could take in six months. To that one who is tired out by the work and worry of business or professional life, a trip on the lakes certainly proves one of the best tonics he could take.

It's a 410 mile run from Toledo to Mackinac, and the steamer carrying the press gang rounded in at her dock at the foot of the historic old fort (now unoccupied) early on the morning of the glorious Fourth. It was dark and gloomy enough to give a fellow the blues, but one doesn't have the blues at Mackinac. The air is so pure and bracing that a fellow soon feels new life coursing through his veins, and forgets his worry and troubles, if he has any, in contemplating the grand scene spread out before him.

It was a motley-looking crowd that wended its way up the walk to the Grand Hotel. Some of the editors still wore their light crash or serge suits; the more fortunate ones were snug and comfortable in overcoats and suits more suited to a temperature of 55°. Mine Host Hayes and his corps of courteous assistants of the Grand soon had the party comfortably provided for their two days stay. The Grand, in its coat of white, is the most conspicuous building on the island. It is high up on the hill, which here slopes rather abruptly to the water's edge. The Grand laces the straits, and its colonnade portico, 650 feet long, furnishes a delightful promenade and affords a fine view east, west and south. In the distance on the opposite shores are seen St. Ignace, Mackinaw City and Cheloboyan, while to the southeast lay Round Island and Bois Blas Island. The latter is covered with fine timber and is soon to be sold by the Government. The Grand cost \$300,000 and can accommodate 1,000 guests at a time. As it is open only a little over two months in the year it has to be remarkably well patronized to prove a paying investment. I was told it is a great resort for the wealthy class of Chicago, especially the Jews, who gather here in great crowds during the hot season. A large casino in the rear furnishes a hall for theatricals, dances and other entertainments. The editors can cheerfully testify to the fact that the

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

ROYAL BAKING POWDER CO., NEW YORK.

guests of the Grand are well cared for. They were never more royally entertained than they were during their stay at Mackinac.

At Detroit one can obtain some idea of the immense freight traffic of the big lakes. Here the large steamers from Lakes Superior, Michigan, Huron and Erie pass in review. There is almost a constant procession of "whalebacks" and other vessels, one steamer generally with two, often three, other craft in tow,—not as one sees barges towed on the Ohio, but connected with cables and strung out fifty or 100 yards apart. The tonnage passing Detroit annually is the greatest of any port in the world.

It must not be imagined that the recent outing was given up wholly to sight-seeing and fun and frolic. The literary part of the annual program was carried out at the Casino, Mackinac, on the afternoon of the 4th. Excellent papers were read on a number of topics in which the successful newspaper man is vitally interested; and Col. J. Stoddard Johnson paid a glowing eulogy to the late Major Henry T. Stanton. The two were friends and business associates for years and the Colonel's tribute was a most touching one.

Two of the would-be "swells" in the party took a thirty-five minutes horseback ride at Mackinac. Imagine their feelings when they had to plank down \$6 each for their fun. Another who was "trotting in the same class" had an extra meal or two served in his room, and his board bill for the two days sojourn cost him only \$17. They'll know better next time.

A run of fourteen miles to the northeast on the little steamer Islander brings one to "The Snow" Islands, (Les Cheneaux) (over 100 in number), the famous fishing resort. The narrow channels abound in perch, pike, bass and muscalonge, and the shores are dotted with club houses and fishing resorts. Editors Jenkins, of the Princeton Banner, Adams, of the Owensboro Inquirer, Bell, of the Georgetown Times, Champ, of the Bourbon News, and the BULLETIN scribe spent a day at "The Snow," stopping at the "Les Cheneaux Club's" handsome quarters. In a little over two hours the party caught sixty fish, most of them perch. The BULLETIN scribe had the pleasure of landing the biggest in the lot, a muscalonge, three feet long, and weighing ten or twelve pounds. Another party the day following caught 287 fish in two hours at the same point. Later in the season wild ducks flock to the islands in great numbers, and some deer and bear are to be found. The sportsman finds the islands an ideal spot for a hunt and fish.

Col. Craddock tarried at Mackinac only an hour or so, returning on the same steamer on which he made the up trip. He found it too cold, and after hugging a steam-heater for several minutes without finding any heat, although it was there, he hastened to the docks in time to catch the vessel, on her return trip.

Belle Isle is the pride of all Detroit. It lies in Detroit river at the upper end of the city, and is one of the largest and most beautiful parks in the country. It contains 700 acres. Years ago it was a swampy piece of ground known as "Snake Island." The city bought it for \$160,000, and stocked it with hogs to kill off the snakes. It was then known as "Hog Island." Later the city constructed beautiful drives and walks, and although it is now one of the loveliest parks in the country Detroit expends annually \$100,000 improving it and adding to its beauty. Electric cars carry passengers to a bridge connecting with the island, and as the fare is only three cents the poorest citizen is enabled to visit the park and enjoy its cool walks. "Detroit wouldn't take \$15,000,000 for Belle Isle," remarked Captain Lightbody as the "Alpena" was passing on the down trip with the editors.

Few who visit Cincinnati ever see the best part of it. A ride or drive out on the hilltops is necessary to get a look at the beautiful portion of the Queen City. Nowhere are more beautiful homes to be found. Closely-trimmed, velvet lawns

surround the handsome residences, the whole presenting a most attractive scene which was enjoyed to the fullest by the editorial party, thanks to Colonel W. B. Melish, of the Citizens' Committee, in charge of the approaching National G. A. R. Encampment. This trip to the hill-tops, coupled with the very hospitable entertainment accorded the press gang by Manager Maxwell of the Palace Hotel made the brief stay in the Queen City a most pleasant one.

The immensity of the Lima oil fields was a surprise to most of the party. For three or four miles south of the city the earth is literally covered with huge tanks of the oleaginous fluid. One can smell the oil for miles and miles.

A Continuation of Our \$7.65 Suit Sale.

We will continue to sell \$10, \$12 and \$15 Suits for \$7.65 during this entire month. There are two reasons for this. One is that we find we have many more good Suits to put in this sale than we thought we had. The other reason is that our many country patrons are in the midst of the heaviest work of the year and did not yet have an opportunity to avail themselves of these splendid bargains, hence the sale continues during the month.

Don't Miss the Opportunity

of buying for \$7.65 a Suit of Clothes that would cost you from \$12 to \$15 elsewhere, and at these prices you would not pay too much for them. They are worth it. Respectfully,

AVENGED THE DEVIL.

Indiana Man Stabs the De-spoiler of His Home.

A WOMAN IN THE CASE.

She Rushed Upon the Scene With a Re-volver In Each Hand and Shot a Few Hoses in the Air During Her Frenzy.

Waldron, Ind., July 16.—While a traveling show was performing in this place and Frank Baldwin, one of the attaches, was collecting gate money, John McCormick of Connellsville, who claimed that Baldwin had stolen his wife, made a rush with his knife, plunging it to the hilt in Baldwin's left side. The injury is fatal.

When Baldwin staggered and fell, Mrs. McCormick rushed out of a dressing room, partly clothed and screaming with fury, while she held a revolver in each hand. There were one or two shots in the air fired by her, causing the most intense excitement. Women fainted and men and children fled in terror.

Meanwhile McCormick ran west on the railroad track, shouting: "I have avenged the devil who robbed me of my wife and disgraced my home." Pursuit was given, but he escaped arrest.

Pork Packing.

(Cincinnati Price Current, July 14th.)

The marketing of hogs has been on a further reduced scale. Western packers have absorbed a total of 360,000 for the week, compared with 405,000 the preceding week, and 470,000 two weeks ago. For corresponding time last year the number was 320,000. From March 1st the total is 7,970,000, against 6,920,000 a year ago—an increase of 1,050,000. Not much complaint as to quality. Prices have moderately improved, and at the close average about 10c. per 100 lbs. higher than a week ago at prominent places.

The market for product has been on a somewhat firmer basis most of the week, without notable activity. The reduced manufacture, now and prospectively, is counted as an element in the calculation.

FLEMINGSBURG-TIMES Democrat: "It is a well settled fact that Admiral George W. Dewey is an own cousin to Misses Sarah and Lizzie Dewey, of Elizaville, the father of the Admiral being a brother of the late 'Squire Dewey. It is said that C. W. Darnall, of Maysville, wrote to Admiral Dewey, since his Manila victory, to know what relation existed between the families, and received a reply to the effect above stated. 'Squire Dewey came to this State from Vermont.'"

SAMSON'S claim to the great naval victory reminds a friend of the BULLETIN of an old lady, long since gone, but well known and remembered, who had two nieces, to one of whom she was very much attached, not caring very much for the other. No matter what the latter did for the old lady she gave her favorite the credit for it. Upon one occasion, while the favorite was some hundreds of miles from home at school, her sister was buttoning the old lady's shoes, when the latter said "Thank you, Mary," utterly ignoring Bettie, who was doing her the service.

THE stockholders of the Commercial Building Trust, the Globe Building and Loan Company and the United States Building and Loan Association will in a short time get back some of the money they put into these concerns, says the Louisville Courier-Journal. The assignee of each has on hand sufficient funds to distribute a substantial dividend. Judge Field has directed the assignee to make the distributions, deeming this a better method than to have the money paid into court and distributed by the receiver. The distributions will be equitable, the court having ruled that the preferred stockholders and those who had given notice of withdrawal had no greater rights than the other holders.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. O. Hammick & Co., of Shelby, N. C. Trial bottles free at J. James Wood's drug store. Regular size 50c. and \$1. Every bottle guaranteed.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky. Sold by J. Jas. Wood & Son, druggists.
